Year 2 explore signs around Thomas Hassall

LET'S COMMUNICATE

This term, Year 2 is studying the Science and Technology Unit, 'Let's Communicate'.

God created us with the ability to think, create and communicate. Over time, our ability to think has allowed us to create technologies to communicate in a variety of ways.

We will be looking at the impact of changing technology on people's lives.

The form of communication explored in this unit include:

- Non-verbal
- Verbal
- The use of signage; and
- Symbols and modern technology.

Year 2 had great fun exploring all the different signs we have around the College.
