THE WAY

TERM 3 | THE WAY NEWSLETTER | FRIDAY 21 AUGUST 2026

- 

PREP LEARNING AND EXPLORATION

This term in Fruit Groups, our Prep students are embracing a wonderful range of learning experiences across Christian Studies, Science and STEM.

We have begun the term by exploring the Fruits of the Spirit, learning about the qualities God encourages us to show in our everyday lives. The students have enjoyed creating their own fruit baskets as a visual reminder of how God wants us to live and treat others.

Following our exciting excursion to Calmsley Hill City Farm, the students have continued investigating the world around them during Science lessons. They are exploring living things, with a particular focus on farm animals and what they need to grow, live and thrive.

Our STEM learning has been a highlight, with students enthusiastically designing and creating their very own volcanoes! There was plenty of excitement as they made predictions, asked questions and shared their ideas. The playground was buzzing with curiosity and discussion as students explored how and why a volcano erupts.

It has been a fantastic start to the term, with our Prep students showing curiosity, creativity and enthusiasm as they learn, discover and grow together.
