TERM 3 | THE WAY NEWSLETTER | THURSDAY 24 SEPTEMBER 2026

YEAR 7 TO 10 FINAL MATHS EXAMS

In Weeks 2–3 of Term 4, Years 7 to 10 will be sitting their Final Examinations. For Year 7, this will be their first opportunity to complete a formal assessment in the Auditorium.

Since examinations fall early in the term, all students are strongly encouraged to start revising before the holidays begin. To support this, all Year 7 to 10 Mathematics students will receive revision resources during Week 10 of this term.

We encourage every student to commit a few mornings or afternoons to studying over the break:

- **Years 7 & 8:** Aim to complete a chapter review test for each assessed topic.
- **Years 9 & 10:** Complete relevant chapter reviews along with practice exam papers.

While all Mathematics classes will dedicate time to revision leading up to the exams, relying solely on Term 4 lessons is not enough. Use the break to your advantage to consolidate your learning so you can hit the ground running next term!
