TERM 2 | THE WAY NEWSLETTER | TUESDAY 23 JUNE 2026

YEAR 3 VISIT LIZARD LOG

On Monday this week, Year 3 enjoyed an exciting excursion to Lizard Log in the Western Sydney Parklands, where they explored many of the concepts from our Science unit this term on forces.

Throughout the day, students participated in a range of hands-on activities and experiments, including making slime, racing billy carts, and investigating how pushes, pulls, and friction affect movement. They were also treated to an engaging science show and had the opportunity to make and launch their own rockets, bringing their classroom learning to life in a fun and memorable way.

The weather was beautiful, making it a perfect day for outdoor learning and exploration. We were incredibly proud of how respectful and enthusiastic the students were throughout the excursion.

We hope your children have shared some of the many stories, discoveries, and scientific explanations from the day. It was a fantastic opportunity to see science in action and deepen their understanding through real-world experiences.

Mrs Lisa Sampson
Junior School Teacher - Year 3 Year Leader
