

AN EXCELLENT TOOL FOR YEARS 11 AND 12

Our College subscribes to Atomi, an online platform that provides syllabus-based videos, readings and quizzes for many Stage 6 subjects.

Subjects covered include Mathematics, English, Sciences, most HSIE subjects, Visual Arts, HMS, CAFS, Studies of Religion, Design and Technology and Industrial Technology.

All students in Years 11 and 12 students can access Atomi through the Student Dashboard, or by visiting the Atomi website and logging in with their College credentials.

Atomi has recently added the following features:

1. AI-powered marking, which provides students with targeted feedback on their written responses.

2. AI-powered custom quizzes, where students can select syllabus dot points they need to revise and generate practice questions tailored to their needs.

Atomi can be particularly useful for revision, helping students review course content, practise exam-style questions and identify areas requiring further study.

We encourage all Year 11 and 12 students to make use of Atomi as part of their regular study and revision routine.

If you have any questions about Atomi, please contact Mr Samuel Mills.
