ART YOU CAN WEAR

Art you can wear? Who ever heard of such a thing?

A wearable art piece gives complete freedom to the artist/designer to reveal their imagination. Wearable art can be sewn, constructed, glued, painted, collaged, riveted, woven and knitted. They can be made from metals, recycled found objects, silk, rubber, natural fibers, industrial offcuts or whatever substance can be used. Mr Brattoni, our Year 9 Visual Art teacher describes the topic Wearable Art as "an enjoyable unit full of energy and crazy ideas".
