

CODE CAMP RETURNS IN OCTOBER

These school holidays we are really excited to be hosting Code Camp again.

During Code Camp at Thomas Hassall Anglican College your child can learn to code and build their very own iPhone or Android app.

Code Camp has taught more than 22,000 students in Australia and is a great way to spend time over the holidays with friends while learning important new skills like logic, creativity, problem solving, app development and game building in a fun and engaging way. Every child attending a holiday camp will build games on software platform Code Camp World and walk away with their very own app. They can take it home to share with family and friends.

Thomas Hassall Anglican College - Spring Code Camps
Camp Dates: Tuesday 3 October – Thursday 5 October

Spark (Years 2-6) - Beginners + Intermediate

Fun, engaging and challenging – Code Camp Spark is where every student in Years 2-6 should start their coding journey. Code Camp teachers will challenge them to develop their coding to reach more advanced levels.

Ignite (Years 2-6) - Intermediate + Advanced

Students build on their skills and create new apps with increasingly complex logic, more code, behaviours and problem solving. Start with 'Drag and Drop' and then move to Line Coding with JavaScript.

Enrol today and help your child become a coding superstar.
