

IT'S ABSOLUTE BANDEMONIUM

Intermediate Concert Band win gold at Bandemonium.

On Wednesday 16 August, our Intermediate Concert Band participated in Camden's first ever band festival event, called Bandemonium, and received a gold award – which was an outstanding result! They performed three pieces, and also had the opportunity to watch another local primary school perform. The band received some constructive feedback as to how to improve for future

performances.

The event was held at the Camden Civic Centre and our students had lots of fun travelling to this new location and performing to a new audience.

The Intermediate Concert Band is made up predominately of students in the Junior School, including about 10 of our advanced Year 4 students that are currently in our Year 4 band program. This was their first large performance, and definitely a day they will remember! There are also some senior school students in the band, and, all students get along very well together.

Well done and congratulations to all performers and the fantastic result!
