

THE WAY

TOURNAMENT OF MINDS

The College was wonderfully represented by students in Years 3 and 4 in the Tournament of Minds challenge.

This year our College once again participated in the Tournament of Minds (TOM). TOM is a problem-solving competition for teams of students from both Junior and Senior school.

This year the team consisted of a group of Years 3 and 4 students. The group had six weeks to create and design a solution to a maths and engineering challenge. They also had to create props and write a 10 minute script for the competition day.

Last Saturday (26 August) our students very impressively presented their solution to a group of judges. They impressed the judges with their outstanding problem solving skills, and creative solution to the challenge

Although we didn't win the competition, our students enjoyed an amazing learning experience, as they worked together collaboratively.

Congratulation to these students for their hard work, commitment and an outstanding performance: **Annabel C, Alex L, Aaron D, Madeleine T, Jasmine L, Christian A** and **Stratos D**.
