

WIN A NEW VEGGIE GARDEN!

Win a new veggie garden and help the THAC Garden Club join the compost revolution.

Today is your last chance to get 40% off your purchase of a compost bin, worm farm or bokashai bin (for odourless indoor composting). By purchasing some composting gear you can also win a veggie garden or a gardening course. Use the coupon code: 'THAC' when purchasing your compost bin and \$5 will be donated to Thomas Hassall to go towards a worm farm or compost bin.

To find out more about the competition, visit this link:

<http://compostrevolution.com.au/about/share-the-love/>

In Garden Club this term we have been thinking about sustainability. We are aiming to continue to grow produce at The Grange that will be useful in our amazing canteen - Mrs Riitano's Kitchen. We loved seeing our strawberries in a fresh batch of strawberry muffins last week, not to mention the luscious spinach that was tucked inside the gozleme.

As well as producing fresh food for the MRK, we'd love to keep developing sustainable systems at the Grange to recycle the food waste from our College community. Composting food scraps helps to return nutrients to the soil and grow new plants. It also saves food scraps from being sent to landfill.

By purchasing a compost bin, your family can join the compost revolution and recycle food scraps at home. Your purchase will also help the garden club to get a new compost bin and expand the sustainability of our College.

Just remember to enter the coupon code 'THAC' when you make your purchase to ensure that \$5 gets donated to the Thomas Hassall Garden Club.
