

PARENTING COURSES IN 2019

The Bringing Up Great Kids program uses ideas of mindfulness and reflection to support parents.

They help to review and enhance their interaction and connection with their children.

Through the program parents of children aged up to 10 years will explore:

- * Their parenting style
- * Brain development in children and its influence on their thoughts, feelings and behaviour
- * Important messages that children communicate to their parents and how they do this
- * The importance of building self-esteem in children
- * Ways for carers/parents to take care of themselves and to find support when they need it
