

THE WAY

YEAR 11 DESIGN & TECHNOLOGY EXCURSION

Year 11 Design and Technology students visited the Museum of Applied Arts, Sciences along with the University of Technology Sydney.

The excursion enabled students to gain a firsthand appreciation of what innovative and sustainable design looks like. They also saw what excellence looks like, as they viewed nominated 2018 HSC Major Design Projects.

They gained a valuable lesson in understanding various design parameters including the important considerations of responsible and sustainable design and insights into future design career pathways including; architectural design, project design and management, industrial and medical design.

Mr Steve Moynan

Director of Vocational Pathways
