

YEAR 11 PEER SUPPORT LEADERSHIP PROGRAM

As the College year progresses into Term 3, the Year 7 students have grown accustomed to their high school surroundings.

Influencing this transition is the **Year 11 Peer Support Leadership Program** which has encouraged students to interact with each other in order to build positive relationships, receive helpful advice and ultimately ease the change from Junior to Senior school.

This Term, the Year 11 Peer Support Leaders are organising and running a variety of engaging

activities to challenge the Year 7's to connect and create a tighter community within their grade by participating in these events. The Pastoral Care groups have recently come together to participate in a lunchtime soccer game, competing in sporting house teams. It was a huge success, attracting many students to a friendly game of a much-loved sport. The Peer Support Leaders plan to continue these events to help support and encourage the students throughout the rest of the term.
