

THE WAY

YEAR 12 VISUAL ARTS

Year 12 Visual Arts students are busy completing their artwork to meet the state-wide deadline on September 2 and preparing to exhibit at the Illuminate Exhibition on September 5.

Students have chosen from a range of expressive forms, and researched and devised their theme to build a Body of Work. Below is a taste of the wonderful works that will be on display for Illuminate.

Stephanie G: this is one pencil drawing from a series of three which deals with our tendency to collect consumer products which we at first embrace with great enthusiasm but eventually they become our biggest burden.

Lara P: This is a detail from Lara's large painted canvas which captures the energy and engagement of a dance party. She was inspired by her experience as a rock musician and by the idea of 'dancing like an animal'.

Susan Z: Susan was fascinated by the idea of just how fragile nature can be. After exploring this idea of fragility and experimenting with the medium of paper, she has produced two large paper sculptures.

We look forward to seeing you there at this wonderful showcase of HSC student work across a range of subjects.
