

THE WAY

AMAZING RACE

During Week 5, the Peer Support Program gave Year 7 students the opportunity to participate in an 'Amazing Race' activity during lunchtime.

This required many of the students to persist through a variety of challenges in order to receive the winning prize. Each team successfully managed to derive the provided clues that were designed to test their ability to problem-solve, communicate effectively, and work together in order to efficiently complete the course. This allowed students to use a broad set of their skills and enhance the positive relationship between their peers. However, the main focus of the day was to create an exciting and judgement-free environment for all to enjoy as it was a great success and a fun experience for both the Peer Support Leaders and Year 7 students.

Congratulations to Year 7 Wilberforce for coming in first place with their outstanding performance and to all the PCs for their amazing efforts.

Emily Fitzgerald and Anna Nguyen

Year 7
