

THE WAY

YEAR 11 VISUAL ARTS

Earlier this year, the Year 11 Visual Arts class had the challenge of creating a paper cut design based on the shapes that they discovered in the college buildings and surrounds.

The students engaged in a very sophisticated way with this task. Their use of paper was innovative and they also exploited colour and shape. The Visual Arts program is broad and embraces Design as well as traditional artmaking. Designs such as these have significant value in the Commercial Art world and could easily be applied to a range of everyday objects: interior design, furnishings, fabric design, floor rugs, book covers, posters, wrapping paper etc.

The students whose work is represented here are: Vodel S, Melissa M, Rajvi G and Sarah M.
