OCTOBER 2019

## Schools' Guide to Disability Provisions

### DISABILITY PROVISIONS FOR THE HSC

Important Message for Parents and Care Givers of students sitting the 2020 Higher School Certificate

To ensure that we create a level playing field for all of our students in the Higher School Certificate Examination, Disability Provisions are available to a small number of students in Year 12 with documented medical or learning difficulties. Disability Provisions may include the use of

readers or writers, rest breaks and many other provisions depending on a diagnosis from health care professionals.

NESA requires detailed evidence before provisions are granted for certain conditions. This evidence needs to be dated not earlier than Term 4 this year. If you believe that your son or daughter may be eligible, please contact the College or myself for details of NESA requirements.

Disability Provisions may be available, even though your student has not accessed provisions before. Please feel free to contact me if you have any questions regarding Disability Provisions.
