

SCHOOL HOLIDAY ACTIVITY

This isn't your average holiday camp!

CodeCamp is back for the upcoming Summer holidays. Participants will have the most fun and epic journey learning the skills of the future! Each course is designed to empower your kids to design, code, and problem-solve, as they create their very own apps, games and websites.

This camp is for children aged 7-13 and will be running at the College on Monday 20 January - Wednesday 22 January 2020.

You are able to use the \$100 creative kids rebate for this camp. [Find out more here.](#)

Enter the special Thomas Hassall code 'earlyforsummer' to receive \$20 off.
