

THE WAY

THE WAY WEEKLY RECAP I
FRIDAY 16 OCTOBER 2020

YEAR 5 TRANSITION PROGRAM

This week marked the start of the Year 5 Transition program.

Students had the opportunity to participate in Visual Arts, Science, Drama and History.

Our Visual Arts teacher, Mr Brattoni, taught students about physical dimensions when sketching characters and how to plan this using ovals. Our History teacher, Mr Mills, gave students a taste of Ancient Egypt, where students had to demonstrate Mummy-wrapping skills. Our Drama teacher, Miss Chavura, taught students about dramatic focus and tension through a variety of drama activities. Our Science teacher, Mr Strong, taught students about visual illusions and demonstrated safe practice within a science lab space.

We're off to a great start and the students loved their first week.

Mrs Millie Pettett

Coordinator of Learning Innovation - Middle Years and G & T
