

AUSTRALIAN KARTING CHAMPIONSHIPS

Zac Zamprogno is in Year 12 and is also a skilled racing kart driver.

Recently he travelled to compete in the opening round of the 2021 SP Tools Australian Kart Championship at Ipswich in Queensland.

This was Zac's first race with his new team Patrizicorse Racing. Zac had a great race event though very exhausted as the weather on the race day was very hot and humid. He had a terrific outcome and came in 3rd place in round one at Nationals. We are all very proud for his effort and

commitment.

Zac also needs to do cardio training four times a week to keep him fit, cognitive reactionary training and does many hours in a driving simulator. On the track he can travel up to 160km.

Zac is also studying VET Automotive Engineering as part of his HSC. He was awarded 2020 Year 11 VET student from a large pool of 8 schools and over 8 different subject areas which is also a great achievement, well done Zac!
