

YEAR 10 FOOD TECHNOLOGY

On Thursday, students in Year 10 Food Technology visited Northbeach Novotel to experience a range of careers offered by the hospitality industry and other industries.

These included Finance, Business Services, Construction, and Marketing.

Students gained hands-on experience in creating mocktails, received barista instruction and worked with the pastry chef in the Novotel's industrial kitchen. Year 10 Food Technology also had a tour of the restaurant, back of house, including the kitchen, the laundry facilities and maintenance.
