

FARMER FRIDAY

A fun dressup day for Kindergarten!

Kindergarten have been learning about living things in Science and their characteristics, needs, behaviours, and the environment in which they live.

Usually towards the end of Term 3, Kindergarten visit Belgenny Farm and participate in farm activities that teach them how animals can be used as food or clothing. Kindergarten have enjoyed various farm related activities on Seesaw this week. They also learnt the Nutbush and how to make lemonade!

On Friday we finished off the week in a fun way and have dressed up as a farmer for Farmer Friday. Kindergarten loved getting dressed up!
