

YEAR 7 CASTLE MAKING

This past term, Mr Mills' Year 7 History class have been learning about Medieval Europe.

For a recent lesson on military and defence systems, students took a break from their screens and constructed their own Medieval castles out of paper and cardboard.

It was wonderful to see students' creativity in their decorations and to see them engaging as they learned about the different components of a castle, and how each element was used to defend the castle against invaders.

We have included a few of the creative designs.

Mr Samuel Mills

Senior School Teacher - History & English
