

FROM THE SENIOR SCHOOL CAREERS ADVISOR

If you are looking for careers conversations and advice come down to the Senior IRC in the N block building and see Mr Roper in the Careers Office.

Mr Roper is the College's acting Careers Advisor for 2022. Students in any year in the Senior School can book an appointment to meet with him and discuss their future plans and pathways towards study and work.

The Careers Advisor can provide information, guidance and advice:

- to help students explore their education and career options
- to help discuss subjects and courses in which students may be interested
- in creating a resume, searching for jobs, applying for jobs and/or applying for further study.

Mr Roper has been at the College since 2016 and has taught a range of HSIE subjects, particularly Stage 5 Commerce, Stage 6 Business Studies and Legal Studies as well as the VET Business Services Course. These subjects include a range of careers related topics and they

often spark conversations about future study and work more informally. He is excited to help students match their passions, interests and skill sets with possible career and study options. If you wish to speak to Mr Roper he can be reached on the phone or over email at mroper@thac.nsw.edu.au

One particularly helpful tool that the College uses is **Job Jump**. All students and their parents are encouraged to join Job Jump, which is a one-stop web site that communicates the latest Career search opportunities as well as training options and information on how to access them. Their Career Quiz Wiz link is especially useful if students are interested in trying to link skills and passions to future careers. To join Job Jump, just go to their web site, click "**I'm new**" and follow the steps using our College password **tom**. There is a button each for students, parents and staff. It is well worth the time to explore this valuable resource! <https://www.jobjump.com.au/>
