

# THE WAY

# FRUIT GROUP FUN IN PREP

**In Prep the students are split up into three groups at the beginning of the year.**

The group names are the bananas, the apricots and the pears. Each group has students from both prep classes attending on that day. These groups are a great way for students to mix and get to know their peers and teachers from the Prep class next door.

During fruit groups students engage in a wide range of activities. These include gardening, cooking, Christian studies, History, Geography, Health and Science. This fortnight the students have been in the kitchen making frogs in a pond with jelly and a frog lolly. In Christian studies the students have learnt from the bible the story of Joseph and his coat of many colours. They created their own Joseph coat using a paper bag and fabric. The students have been learning about having a growth mindset and discussing healthy foods during their health lesson.
