

FIRST AID COURSE

Recently our students in Year 12 Sports Coaching and Year 11 PDHPE students completed run by Surf Life Saving NSW.

This course provided students with the knowledge and skills needed to manage emergency first aid situations and deliver competent emergency care until the arrival of professional medical support.

Students will obtain a first aid certificate that is a nationally recognised WorkCover-approved training.

It is great to have now at the College so many students who can support the health and safety of our community.

Mr Kent Weir
PDHPE Coordinator
