

VISUAL ARTS IN KINDERGARTEN

This term, Kindergarten students will be studying the artworks of renowned artists such as Pablo Picasso, Van Gogh and Piet Mondrian. They will learn that an artist takes inspiration from a range of sources, and that we all value different perspectives when we view a piece of art. So far, the students are recreating the famous artwork 'Starry Night' from Vincent Van Gogh. This will be a process and take some time to complete. Some of our students are proud to show the different stages of their own version of 'Starry Night'.
