

PREP EXCURSION TO CALMSLEY HILL FARM

The Prep classes enjoyed visiting Calmsley Hill Farm this week. The bus ride was a big hit as we made our way to the farm. We saw many different farm animals including baby piglets that were only four days old. We all had a turn milking a cow and got to pat ducklings and chicks. The working dog show was very interesting as we saw how clever the dog was rounding up the sheep. It was a great excursion to learn more about how farms work and the animals that live on the farm.
