

LEARNING INDEPENDENT LIVING

This term in Year 9 Commerce, students have been gaining skills in independent living, such as how to apply for jobs and arrange accommodation. They have been practicing their budgeting skills, as part of this they have planned their groceries for the week. They took part in a \$10 meal challenge, the students prepared a cooked lunch with a budget of \$10. There were some great meals cooked and thanks to the Food tech staff in getting this activity running.
