

TALENT ATHLETES PROGRAM

We're thrilled to share that our Talented Athlete Program is launching next week for students from Kindergarten to Year 12! This co-curricular program is a fantastic opportunity for our students to develop and advance their talents in the sports we offer, including Football, Dance, Basketball, Netball and Tennis.

Our partnerships with dedicated providers ensure that our programs create an excellent and supporting environment for skill development, team building, curriculum dedication and implements Christian values as students within the community. Since returning to college, we have seen a number of enrolments and trialists for our Advanced and Development Pathway Programs and so excited to see all who have joined, there is still time and spaces for students to enrol, you can find registration through your parent portal or college app.
