

CO-EDUCATIONAL ANGLICAN SCHOOLS ASSOCIATION

CASA formally known as NASSA, was established 21 years ago and includes 8 Anglican Schools. The Co-Educational Anglican Schools Association (CASA) encourages a spirit of excellence, competition and fair play as well as a Christ-centred approach in all matters relating to sport. CASA is the first step in the pathway to State Representation for students attending the member schools from Year 2 to Year 12. CASA encourages and promotes citizenship, connections and education through sport with member schools.

Why have a Combined Schools Sports Program?

- A multi schools sporting association promotes healthy competition, skill development and community engagement.
- A combined sports program allows students to showcase their talents, learn teamwork and build sportsmanship.
- Diverse participation fosters a sense of unity, cultural exchange and networking amongst schools.
- CASA offers a platform for students to learn essential life skills and creates an enriching and holistic experience for children beyond the classroom.
- Relationships are forged between athletes through carnivals and representative sports and these transcend school boundaries that often continue beyond school.

- CASA athletes spur each other on to high levels of sportsmanship, achievement and a love of sport.
