FEBRUARY 2024

YEAR 1 SHOWCASE

Year 1 students have been thinking about Primary Colours and drawing natural and made objects that are red, yellow and blue. They have been experimenting with different drawing materials in Art and learning about 'negative space' - the space in an artwork that is vacant. In these pictures of red, yellow and blue things, they have drawn onto coloured paper and used chalk or oil pastels to make the background white. Things are about to get messy as we experiment with white tempera watercolour next! Colour mixing next term...
