

CREATING FABRIC MONSTER

This term Stage 4 Textiles Technology have been busy working towards creating a soft fabric Monster. The process for creating this project starts with creating Mood boards in Canva. Year 7 collected a wide range of ideas from sources such as, image stills from the Monsters INC Movie and colour ways and patterns from Aboriginal and Torres Strait Islander culture. The Mood boards have utilised colour, shape, pattern and texture to clearly define the direction their unique Monster design will take. Below are some lovely examples of mood boards created.
