

YEAR 10 COMMERCE MARKET DAY

Monday 19 August was our big day, the Year 10 students ran a range of stalls ranging from Acai to barbecue with a range of delicious desserts as well.

Between them the students raised over \$2000 for The Kids Cancer Project, their nominated charity which funds research into childhood cancer.

Students learned valuable life lessons about organising a business, stock levels, the importance of cleanliness and health and safety.

Thanks also to our trusty team of Year 11 accountants in training from Year 11 Business Studies who came and did the cash up and followed correct cash handling procedures.
