

THE WAY

STUDENT SPOTLIGHT

Naomi C in the graduating class of 2024 has been nominated for potential inclusion in Young Writers Showcase 24 with her Major Work for Year 12 English Extension 2, with the final selection process yet to be completed. Just being nominated is a great and rare accolade, placing her among the finest young writers of this HSC year.

Submitting with four other students who completed the course in 2024, Naomi's piece is a feminist take on the controversial notion that William Shakespeare's drama was actually penned by another, anonymously, portraying this in creative writing that features time jumps between our era and the Bard's. Naomi has diligently approached the sustained writing process with a continuous crafting and polishing that developed her piece from a simple idea to a mature creative output. She is commended for her efforts and integrity, as well as her achievement.
