

LANGUAGE IN JUNIOR SCHOOL

Exciting Times in the Modern Languages Classroom!

Our Modern Languages classroom is buzzing with excitement as students dive into their language-learning journey!

Year 1 has been eager to begin their Spanish journey, discovering not only the benefits of learning a new language but also how it strengthens their memory and confidence. They were fascinated to learn that Spanish is spoken in 21 countries worldwide!

Year 4 has shown great enthusiasm for French, exploring its global reach and cultural connections. They were amazed to learn just how many countries speak French and how it ties into their own heritage and traditions.

It's wonderful to see our students developing a love for languages and expanding their global awareness!
