

# THE WAY

## FROM THE DIRECTOR OF OPERATIONS & WELLBEING - JUNIOR SCHOOL

**Junior School Voice (JSV) empowers students by involving them in decisions that affect their school life**, fostering responsibility, confidence, and critical thinking. By sharing their ideas on rules, activities, and routines, students feel valued and develop decision-making skills. This promotes a collaborative and inclusive environment, where all voices contribute to making College better.

JSV encourages ownership of actions and behaviour, as students take pride in class goals and group projects. This builds positive attitudes toward learning and teamwork.

The first JSV representatives for Semester 1 meet weekly with their lead teacher to gather feedback and report back during Manners Matter.
