

# THE WAY

## OPEN WEEK 2025

**Last Saturday, we concluded our Open Week with a full day of tours and activities across the College.** It was a well-organized and informative event and we are proud of how everything unfolded.

Our students played a key role in assisting with various activities including hospitality. They welcomed and supported visiting families throughout the day and their efforts were appreciated by many. We received positive feedback from visitors, highlighting how well our students represented the College.

We would also like to thank our staff members, who led the tours and ensured the day ran smoothly. Their guidance and knowledge were essential in helping prospective families learn more about what our College offers.

A special thanks goes to our Parent Volunteers for sharing their experiences and offering support throughout the day. Your involvement was a great help and contributed to the success of the event.

As we reflect on the day, we appreciate the teamwork and dedication from all involved. We look forward to continuing these efforts in the future and building a strong sense of community within the College.
