

THE WAY

PRACTICAL EXPERIENCE IN TAS

Year 11 Construction Students Earn White Card Certification

This term, Year 11 Construction students successfully completed their White Card safety training, a crucial step toward working in the construction industry. The certification equips students with essential knowledge of workplace health and safety, ensuring they can identify hazards, follow regulations, and maintain a safe work environment. Completing this training opens doors to work experience and future employment opportunities in the building sector. Students demonstrated commitment and enthusiasm throughout the course, gaining valuable skills for their careers. Congratulations to all participants on this important achievement!

Year 11 Hospitality Cooking Masterclass

Over the past few weeks, Year 11 Hospitality students have begun the practical components of their course, developing new culinary skills in the kitchen. A highlight of their learning experience was a special masterclass with our MRK chef, Bill, who demonstrated how to brunoise an onion for their Mushroom Duxelles recipe. His expertise provided students with valuable industry insights and hands-on techniques to refine their skills.
