YEAR 12 CONSTRUCTION: CONCRETING IN ACTION

Students in the Year 12 VET Construction classes recently completed a hands-on practical task as one of their competency units 'Carry Out Concreting to Simple Forms'. Their task was to pour a concrete pad for a small trailer to sit on.

Working through each step of the process students were required to:

1. Plan and prepare the job
2. Erect simple framework
3. Place and tie reinforcement
4. Place concrete
5. Strip simple formwork
6. Clean up

The activity was a great success, with students not only building practical skills but also enjoying the opportunity to apply what they've learned in a meaningful and tangible way.

Mr Mark Reed
Senior School Teacher & VET Coordinator
