

PREP VISIT KINDY

In Week 8, students from Prep Blue and Prep Purple participated in a special visit to the kindergarten classrooms and playground, marking an important step in their transition to the next stage of their learning journey. This visit complements the formal orientation sessions scheduled for Term Four, with Prep Red and Prep White also set to engage in similar experiences.

During their time in the kindergarten environment, students explored the classrooms with great interest. They observed the vibrant artworks and enjoyed sitting in the bigger chairs at the tables. Outdoors, they enthusiastically interacted with the playground equipment, including the cubby houses, slide, balancing logs, and the water creek.

At Thomas Hassall Anglican College, we offer a thoughtfully structured transition program that supports a smooth and confident move from Prep into Kindergarten. These experiences help students feel settled and ready to thrive in their new learning environment in the year ahead.
