

KINDY VISIT THE FARM

Kindergarten had a fantastic excursion to Camden Park Education Centre . Our focus was on the process of products from the farm to the plate. Students were able to herd the sheep into pens and check the fleece. Farmer Nic explained the products we get from sheep. We had the opportunity to pick lemons and squeeze them to make lemonade. We collected eggs and pat a chicken.

Then we cracked eggs and made scrambled eggs. Some cracked an egg for the very first time. We rode on a tractor and saw some newborn calves. To finish the day, we made milk shakes as we talked about the products we get from cows.

It was a fantastic learning experience.
