

YEAR 2 SETTLE INTO THEIR NEW LEARNING SPACES

During Term 3, major renovations were completed in A Block, transforming the Year 2 classrooms into bright, modern and flexible learning spaces. The refreshed environment now features improved lighting, new flooring, updated furniture and enhanced technology, all designed to create a more engaging and comfortable setting for students.

Since returning this term, our Year 2 students have quickly settled into their newly renovated classrooms. Teachers have enjoyed watching the students explore the updated spaces, which support collaboration and focused learning.

We look forward to seeing the wonderful learning that will continue to take place in A Block for years to come.
