

BUILDING SKILLS ON THE COURT

Thomas Hassall Anglican College has partnered with Marconi Tennis for many years to provide engaging and enjoyable tennis sessions for our students through our Sport Academy Tennis program.

As part of the program, students participate in weekly tennis sessions designed to build both fundamental skills and a love for the game. Through a mix of fun games and structured skill-based activities, students develop coordination, balance, movement skills, focus and confidence while actively engaging in sport.

The sessions provide a positive and supportive environment where students are encouraged to challenge themselves and enjoy the process of learning. Alongside skill development, the program promotes teamwork and active participation.

These opportunities support students in developing their tennis ability while fostering a lifelong enjoyment of sport and healthy recreation.
