

YEAR 5 DANCE

This semester, Year 5 students explored creativity, collaboration and performance through a landmark-inspired dance routine. Working in pairs, students created and performed a short sequence based on four famous landmarks or sculptures studied in class. They explored elements of dance including space, time and dynamics to create routines that were expressive, controlled and smoothly connected.

Throughout the unit, students practised holding strong shapes, refining transitions and performing with confidence and focus. It was wonderful to see students work closely with their partners, rehearse thoughtfully and grow in confidence when performing in front of an audience.

The final performances showcased imagination and developing performance skills, with students demonstrating creativity and expressive movement in their routines. Well done, Year 5!
