YEAR 12 INDUSTRIAL TECHNOLOGY

Our Year 12 Industrial Technology - Timber students have reached an exciting milestone, all Major Projects and accompanying Portfolios have been submitted and HSC markers have been out to view and assess the final products. This represents the culmination of many months of planning, designing, problem-solving and practical work.

The quality of the students' finished projects is a wonderful reflection of their dedication, perseverance and commitment to developing their skills. Each student should be extremely proud of the time and effort they have invested throughout the year.

We now look forward to seeing their Major Projects assessed and celebrating their achievements when the work is proudly displayed at Illuminate. Congratulations to all of our Year 12 Timber students on an outstanding achievement!

Mr Timothy Nelson
Senior School Teacher - TAS
